

**ZAN-TECH®**

**TURBO DRAIN**

**ZERO AIR LOSS  
CONDENSATE DRAIN.**

# TURBO DRAIN

## ZERO AIR LOSS CONDENSATE DRAIN

The **TURBO DRAIN** is unique in that it is a level controlled condensate drain utilising a Pneumatic valve to fully discharge the condensate (Tested to over 10,000,000 cycles). The Stainless Steel float system controls the high and low levels, ensuring a full discharge of the condensate without compressed air wastage. With a discharge orifice of up to 7mm, the **TURBO DRAIN** will function efficiently in extremely harsh environments. Maintenance is extremely easy since the entire drain can be fully stripped in minutes.

- ▶ Zero Air Loss.
- ▶ No Electrical Connections.
- ▶ Pneumatic Discharge Valve.
- ▶ Stainless Steel Internals.
- ▶ Level Controlled.
- ▶ Large Discharge Orifice.
- ▶ Test Button Facility.
- ▶ Cast Aluminium Housing.

### Specifications

	Model M1	Model M2
<b>Connection</b>	1/2"	3/4"
<b>Valve Orifice</b>	5 mm	7 mm
<b>Condensate Capacity</b>	Nom 75 l/hr Max 225 l/hr	Nom 450 l/hr Max 1450 l/hr
<b>Std. Pressure Range</b>	3-10 Bar	3-10 Bar
<b>Height/Width</b>	82 x 187 mm	122 x 217 mm
<b>Max Pressure</b>	16 Bar	16 Bar
